

## ICACD 2009 Summer Adventure Program

Intermountain Center for Autism and Child Development Adventure Program is designed to provide a positive interactive experience to promote self esteem through team work, problem-solving and communication skills. Our customized activities are geared towards building cognitive flexibility and adaptation skills to assist in transitions, critical to living independently in the adult world.

Participants will be exposed to experiential learning, physical activities and sensory integration through outdoor experiences. Our goal of structured adventure based activities will focus on enhancing social and emotional growth through novel events.

When: 1<sup>st</sup> session: July 7, 8 and 10  
2<sup>nd</sup> session: July 14, 15 and 17  
3<sup>rd</sup> session: July 21, 22 and 24

Sessions are from 9:00 am to 1:00 pm.

Where: Intermountain Center for Autism and Child Development.

Who: Adolescents 13-18 years old.

Cost: 325.00 per session. A 100.00 deposit will hold your child's admittance. Payment is due the first of each week.
